Royal College of Anaesthetists
26 April 2017

Event organisers: Dr John Colvin and Dr Carolyn Johnston | Registration fee: £150

A one day meeting to support the introduction of Quality Improvement and Improvement Science to the Anaesthesia training curriculum.

The aim of the day is to build knowledge, insight, enthusiasm, reassurance and confidence amongst the training community to support the introduction and spread of systematic Quality Improvement using proven Improvement Science methodology. Building on our feedback from last year’s successful event we will move the emphasis of the day to even more hands-on practical experience.

This event is great value for money as delegates will receive a full day of training at a reduced rate.

This event is primarily suitable for QuARCs’s, Consultant Anaesthetists particularly Regional Advisers, Deputy Regional Advisers, College Tutors and Senior Trainees, however all are welcome.
Programme: Wednesday, 26 April 2017
