The BMJ Awards 2021

# Submissions now open

30 June 2021 | Virtual Ceremony

Enter by  
19 April 2021

The BMJ Awards recognises and celebrates the extraordinary innovative work of healthcare teams across the UK. Even as healthcare teams face immense pressures and increased demands, exceptional projects and people are going above and beyond to improve the lives of patients.

The 2021 BMJ Awards highlights the best teamwork the NHS has to offer. Entering the awards gives you a platform to showcase your project, share best practice, gain exposure on a national scale, and the potential to attract funding to take your work to the next level.
