

Introduction to Service Improvement - An Interactive Workshop

1 DECEMBER 2015

QEII CENTRE
WESTMINSTER
LONDON

The British Thoracic Society is pleased to announce this one-day course focussing on an Introduction to Service Improvement in Respiratory Medicine.

It is predominately aimed at consultants in post for 2 years or less, senior trainees approaching their CCT and nurses, physiotherapists and physiologists interested in improving and developing respiratory services.

The aim of the workshop is to provide a practical introduction into improving existing respiratory services within the changing landscape of the NHS and to equip delegates with the tools and techniques required.

Delegates will gain an appreciation and understanding of:

- New changes in the NHS and how it might affect you
- Demystifying NHS finance
- Engaging and influencing the Commissioners
- Models of integrated care in respiratory medicine

- Service improvement in COPD
- Writing a good business case
- Insights from the national Medical Director and future directions

General information: the workshop is restricted to a maximum of 40 delegates in order to maximise interaction with our expert speakers and to further opportunities for small group discussion.

The speakers are all experts in their field and the format of the day will be interactive and informal.

Course fee: £100 for BTS members, £250 for non-BTS members
